

SANGJIN LEE

Seoul, Korea

+82-10-93299427 | lee.sangjin@stonybrook.edu | [LinkedIn](#)

EDUCATION

Stony Brook University (Cum GPA (3.86/4.00))

New York, USA

Bachelor of Science in Applied Mathematics & Statistics

Minor in Computer Science

PROFESSIONAL EXPERIENCE

Data Mining and Informational Systems Lab ([DMIS Lab](#), Korea University)

Seoul, Korea

Research Intern (Supervised by Prof. Jaewoo Kang)

June. 2026 – Present

- Incoming

Korea Polar Research Institute ([KOPRI](#))

Incheon, Korea

Research Intern (Supervised by Prof. Hackwon Do)

Feb. 2026 – Present

- Conduct research on the correlation between liquid flow velocity and protein binding by combining physical experiments with GROMACS to study protein structures and their interactions.
- Quantify icing and frost formation efficiency relative to protein coating levels on metal surfaces through data-driven analysis.
- Automated the measurement of frost molecule formation areas by engineering a pixel-based image analysis model

Stony Brook University

New York, USA

Research Assistant (AMS487, Supervised by Prof. Hongshik Ahn)

Oct. 2026 – Present

- Incoming

Teaching Assistant (KOR111, AMS261: Applied Calculus III)

Feb. 2026 – Present

- Held office hours and helped students improve comprehension in applied calculus by providing detailed feedback on homework and exams to reinforce problem-solving strategies.

Resident Advisor (Fall 2025, Spring 2026)

Aug. 2025 – Present

- Served as an instructor, leading orientation workshops to mentor new students through academic and campus life. Planning and hosting House and Floor events to foster a supportive community environment.

Undergraduate Tutor (CSE 114: Introduction to Object-Oriented Programming)

Aug. 2025 – Nov 2025

- Metor student and provided feedback to improve understanding in Object-Oriented Programming.
- Prepared weekly JAVA lab materials focused on encapsulation, inheritance, and polymorphism.

AI Convergence Education Program, Teacher (Incheon Metropolitan Office of Education)

Sep. 2025 – Dec. 2025

- Led a group of 30 students through an AI convergence program by teaching core coding principles in Python and designing learning materials on AI usage, resulting in a high-quality end-term presentation.

AWARDS AND RECOGNITIONS

- Dean Scholarship (Spring 2025, Fall 2025, Spring 2026)
- Dean's List (Fall 2025, Spring 2026)

ACTIVITIES (or LEADERSHIP POSITIONS)

Decompiler, Stony Brook University

New York, USA

Executive | Technical Manager | Secretary

Aug. 2025 – Present

- Organizing Committee, [2025 Green Digital Trade Hackathon](#) | Hosted by Decompiler | Supported by Korea International Trade Association, Hana Bank, Incheon Chamber of Commerce, and World People United

- Instructor of the JAVA study track to deliver technical lectures and supervise team-based development projects for club members.

Algorithmic Trading Program, Stony Brook University

New York, USA

Lamda

Apr. 2026 – May 2026

- Explored algorithmic trading concepts, quantitative strategies, and risk management
- Designed and evaluated systematic trading logic in a team-based environment

ADDITIONAL INFORMATION

- **Computer Skills:** Python, Java, C, SQL, R, GROMACS
- **Languages:** Korean (Native), English (Full Professional Proficiency)
